

Core Curriculum Generic Rubrics

In crafting the 28 Core Curriculum learning goal rubrics during the summer of 2010, we consulted a wide range of materials used by other colleges and universities. While the precise framing of each of our Core goals was a unique product of the SAS Ad Hoc Core Curriculum Committee and the SAS faculty ratification process during the 2007-2008 academic year, at times we were able to draw upon rubrics developed for similar goals at other institutions. This bibliography acknowledges our debts to those institutions and assessment authorities and includes a list of additional helpful resources.
